

THE “DEEP J” TECHNIQUE - FACE

1. **Entry points above the hair line** - for best support and impact on the upper third.
2. **Vertical vectors** - offer a natural looking result.
3. **J-tail shape** – of the lower part of the Cheekbone paths to enhance thread performance.
4. **Deep implantation** – into the SMAS beyond the lower edge of the zygoma allow to fully exploit the potential of the threads while avoiding the risk of forming gathers.
